

Marketing Campaign Plan By Ayu

AUGUST - OCTOBER 2026

July Phase-1 Campaign Insights

JULY PHASE-1 CAMPAIGN PERFORMANCE

MARKETING GAPS & VALUE PROPOSITION

- **Pricing Confusion:**

Inconsistent communication regarding price and offer validity led to budget constraints being a top reason for non-enrollment.

- **Incentive Gap:**

The absence of a Money-Back Guarantee (MBG) and bonuses during Phase 1, omitted because a bundle was offered, reduced conversion confidence.

- **Value Proposition:**

Messaging failed to address core objections or justify the price effectively across channels, resulting in a high volume of leads ghosting.

TECHNICAL & SYSTEMIC FRICTION

Infrastructure Hurdles: Wix email limitations, device-specific performance issues, and Pixel/UTM tracking trigger gaps presented technical hurdles.

Technical & Tracking Challenges: Console-specific issues in certain European regions, Apple device privacy and cookie consent limitations affecting tracking, limited audience pool size for advertising optimization, and Pixel trigger inconsistencies impacted campaign performance and data accuracy.

Strategic Execution: The backup pricing strategy (\$249 after the first week) encountered execution and implementation challenges, resulting in an inconsistent customer journey and reducing the effectiveness of the planned campaign flow.

Core Pricing Strategy

ESSENTIAL INDEPENDENT FORMAT

\$299

Fixed Campaign Price (August – October)

MBG & BONUSES

- ✓ 75% campaign discount from \$1,190 reference price
- ✓ Constant public price (no backup price-drop strategies)
- ✗ Excludes personal mentors, coaching, and personalized feedback

The \$1,190 reference price must reflect the lowest price charged in the past 30 days to be legally supportable.

If not regularly charged, use **"August enrollment price: \$299"** and completely omit comparison pricing.

Three-Month Campaign Narrative

Grow. Learn. Deepen.

August

Grow

The August campaign theme is 'Grow,' which centers entirely on personal growth and inner transformation, encouraging practitioners to expand their understanding of yoga beyond physical postures.

September

Learn

The September campaign theme transitions to 'Learn,' strategically aligning with the back-to-school season by focusing on returning to structured learning and building a consistent educational routine for adults.

October

Deepen

The October campaign theme is 'Deepen,' which emphasizes mindful development and taking yoga beyond the mat into daily life.

Campaign Narrative: This sequential narrative guides prospects from initial self-improvement motivations through structured educational commitment, culminating in a holistic, lifestyle-integrated yoga practice.

Campaign Pricing Strategy & Compliance

August Phases

The specific pricing schedule includes the August Phase 1 '75% Self-Growth Discount' and August Phase 2 '75% Transform Discount', all fixed at \$299.

Maintaining a constant \$299 price point across all campaign phases is a critical directive.

September Phases

The specific pricing schedule includes September Phase 1 '75% Back-to-School Discount' and September Phase 2 '75% Study Reset Discount', all fixed at \$299.

The price must not be lowered during any Phase 2 period.

October Phases

The specific pricing schedule includes October Phase 1 '75% Mindful Growth Discount' and October Phase 2 '75% Yoga Treat Discount', all fixed at \$299.

Rules & Compliance

The absolute lowest-price strategy of \$249 is strictly reserved for one or two genuine major events, such as International Yoga Day, Black Friday, the Akasha Anniversary, or Limited Scholarships.

Offer \$249 for pop up ONLY from August-October

For compliance, if the \$1,190 reference price is not regularly charged, all promotional materials must use a simple presentation, stating 'August enrollment price: \$299', completely omitting any crossed-out comparison pricing to avoid regulatory violations.

Three-Month Campaign Projections

The campaign establishes a three-month base goal of 230 enrollments at the \$299 price point, projected to generate \$68,770 in gross revenue. This gross revenue projection explicitly excludes taxes, refunds, payment-processing fees, affiliate commissions, and course-delivery costs. To account for varying monthly phases, three specific sales goals have been modeled.

These projections serve as the financial baseline for evaluating campaign performance and determining the viability of scaling marketing spend across the August, September, and October phases.

August Target

\$20,930

The August scenario targets 70 total enrollments, which would yield \$20,930 in gross revenue.

September Target (Primary)

\$26,910

The September scenario targets the primary objective of 90 enrollments, yielding \$26,910 in gross revenue.

October Target

\$20,930

The October scenario targets an optimistic 70 enrollments, which would drive \$20,930 in gross revenue.

Campaign Budget & Target Allocations

Total Budget: **\$33,000** (approx. 48% of target revenue) | **CAC Ceiling: \$90 / enrollment IF it's possible** | Primary Focus: **September**
Back-to-Routine Cycles

August Allocation (30%)

\$10,000

Brand Positioning & Guidelines

Core Brand Positioning & Promise

Authentic, self-paced Hatha yoga teacher training designed for motivated independent learners who wish to deepen their practice and explore the path toward teaching.

Providing comprehensive study in Hatha yoga, philosophy, anatomy, pranayama, meditation, ethics, and teaching foundations through a structured online journey that accommodates a busy lifestyle.

Mandatory Transparency: Essential is an independent, self-paced program. It does not include a personal mentor, private coaching, or individualized feedback.

Primary Competitive Advantages

- **Accessible Entry:** Approachable \$299 entry price backed by honest communication.
- **Authentic Heritage:** Distinct Bali-based identity with deep roots in Hatha yoga.
- **Philosophical Depth:** Meaningful curriculum focusing on philosophy beyond asana.
- **Flexible Pathways:** Fully self-paced study schedules with clear certification pathways.

Strict Marketing Exclusions

- **No Mentorship Claims:** Do not claim to provide a personal mentor, coaching, or assessment.
- **No Career Guarantees:** Never promise guaranteed employment or fast, automatic certification.
- **No Medical Claims:** Absolutely never state or imply that yoga treats mental-health conditions.

Core Campaign Funnel Structure

1

Phase 1: Awareness — Short videos, educational carousels, student stories, and founder/educational content to generate top-of-funnel interest.

2

Phase 2: Lead Capture — Month-specific guides, planners, or challenges in exchange for contact information.

3

Phase 3: Nurture — Email education, course previews, testimonials, and qualification content to build trust.

4

Phase 4: Conversion Event — One live workshop or information session each month to engage high-intent prospects.

5

Phase 5: Enrollment — Directs users to the Essential sales page at the fixed \$299 price point.

6

Phase 6: Onboarding — Provides new students with an immediate start guide, a structured study schedule, a progress checklist, and clear certification requirements to ensure long-term success.

August Campaign: Phase 1 - 75% Self-Growth Discount

Target Audience

- Growth seekers
- Regular practitioners
- Teacher training curious

Content Themes

- 5 signs practice is ready
- Yoga beyond flexibility
- Bali-based yoga from home

Aug 1 – Aug 15 • Phase 1 Campaign Grow Through Yoga

75% Self-Growth Discount

"Deepen your practice, expand your understanding, and discover yoga beyond the physical poses."

Lead Magnet: Self-Growth **Through Yoga Guide**

Content Publishing Cadence

Operational schedule and high-intensity campaign quotas to maintain audience engagement

Standard Weekly Cadence

- ✓ **3 Short Videos & 2 Educational Carousels**
- ✓ **1 Student Story & 1 Course/Teacher Preview**
- ✓ **Daily Platform Stories**
- ✓ **2 Dedicated Email Broadcasts**
- ✓ **1 Live Event** (Per Month)

High-Intensity (Final 5 Days)

- ✓ **1 Email** Every 1 to 2 Days & **Daily Stories**
- ✓ **2 Student-Proof Assets**
- ✓ **1 Platform Walkthrough**
- ✓ **1 FAQ Post**
- ✓ **1 Final Deadline Reminder**

Retargeting Guardrail: Throughout this high-intensity push, retargeting frequency must be carefully monitored and adjusted to prevent ad fatigue and audience burnout.

Campaign Evaluation & Success Metrics

Category 01

Commercial Metrics

- Total enrollments
- Gross revenue
- Cost per enrollment (CAC)
- ROAS
- Sales-page conversion rates
- Checkout completion rates
- Channel and country-specific revenue
- Overall refund rates

Category 02

Audience Engagement

- Lead cost
- Lead source distribution
- Live workshop registration and attendance figures
- Email click-through rates
- Video completion percentages
- Sales-page visits
- Initial checkout starts

Category 03

Student-Quality Metrics

- Course activation rates
- First-module completion timelines
- 30-day progress statistics
- Support request volume and rates
- Documented refund reasons
- Final certification completions
- Overall student satisfaction scores

Monthly Campaign Optimization Rhythm

The campaign utilizes a strict monthly optimization rhythm to maximize budget efficiency and conversion rates.

Optimization Sequence

Days 1–3 • Creative Testing

During Days 1–3 of each phase, the media buying team tests three distinct creative angles, focusing on transformation, depth, and flexible learning.

Days 4–7 • Budget Shift

On Days 4–7, the budget is aggressively shifted to support the two strongest performing creatives.

Mid-Month • Retargeting Pivot

At Mid-Month, the strategy pivots to transition engaged audiences into Phase 2 retargeting pools.

Final 5 Days • High-Intent Concentration

During the Final 5 Days, the remaining budget is heavily concentrated on high-intent cohorts, specifically targeting page visitors, email clickers, and checkout abandoners.

Monthly Debrief • Period Optimization

A Monthly Debrief is conducted to document the best headline, video, audience, emails, and country sales to optimize the subsequent period.

Budget Decision Matrix

Scale Up Spend

Campaign scaling decisions are data-driven: ad spend is scaled up only when **CAC is below \$90** and sales-page conversion remains stable.

Maintain Spend

Spend is maintained while data is forming, ensuring stable optimization patterns before executing structural changes.

Reduce or Pause

Spend is immediately reduced or paused if **CAC exceeds the allowable contribution margin** or if checkout abandonment spikes.
